Director  
UGC- HRDC  
University Of Calcutta

### THEME

Covid19 Pandemic has assumed a worldwide proportion in a span of seven months – affecting inhabitants of 213 countries, with about 15 million cases (by 22<sup>ND</sup> July) and more than 0.6 million deaths. While the viral pandemic has disrupted socio-economic activities in many advanced countries of Europe and has been particularly virulent in USA, its spread in India has its own distinguishing patterns and consequences. The Webinar aims to discuss the immediate as well as long-term effects of the Covid-19 pandemic in India, thereby charting out its impact on socio-cultural and economic practices as well as gauging its influence on health infrastructure and environment in a nation-state of 1.33 billion.

### OBJECTIVES

- To trace out the critical challenges, paradoxes and conflicts of sustainable development in India especially in post-Covid scenario.
- To discuss the impact of the pandemic on demographics of labour and urbanization.
- To elucidate on the susceptibility of India to zoonotic viruses and to hint at preventive steps to avert such crises in future.
- To delineate steps for developing a sustainable economy in post-Covid India, focusing on ecological prevention.
